## OUR HYGIENE AND SAFETY MEASURES

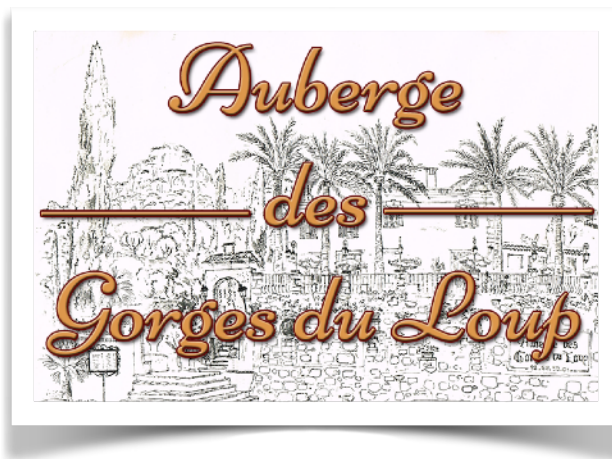

For your safety and that of our employees, we have rethought all of our health procedures and have implemented the following hygiene and safety rules.

### **Respect for barrier gestures:**

- I wash my hands as soon as necessary and at least every 30 minutes upon arrival at the restaurant
- I sneeze and I cough into my elbow
- I greet without shaking my hand and without a hug
- I use a disposable tissue
- I avoid touching my face
- Instructions and hygiene rules:
- Mandatory wearing of a mask by all staff
- Floor marking to respect the physical distance of one meter minimum
- Increased frequency of cleaning and disinfection of surfaces
- Each employee monitors their state of health before going to the establishment via a self-diagnosis questionnaire

### **Specific measures in the restaurant:**

- Wearing a mask is compulsory for customers when moving in the restaurant - customers must have their own mask (if not masks are available on request).
- Spacing of tables inside and on the terraces to respect the distancing measures
- Provision of hydro-alcoholic gel at the entrance and exit of the restaurant and also in the toilets
- Reinforced disinfection of all surfaces, and in particular:
  - Tables after each group of customers
  - Customer sanitary facilities (door handles, sink, soap dispenser, etc.)
- Single-use menu holder and digitized menu (all other support has been removed from the tables)
- Display and floor markings in restaurants to secure waiting times, streamline the route and avoid crossings
- Privileged contactless payment

### **Specific measures in the hotel:**

- Wearing a mask is compulsory for customers when moving in the common areas of the hotel (stairs, corridors, reception, etc.) - customers must have their own mask (if not masks are available on request)
- Provision of hydro-alcoholic gel in each room
- Reinforced disinfection of all surfaces, and in particular:
  - Disinfection of rooms with ozone after each departure of the last customer (which brings the check-in time to 5:00 p.m. instead of 3:00 p.m.)
  - The bathrooms in the rooms (door handles, sink, soap dispenser, etc.)
- Privileged contactless payment at reception upon departure
